CAPABILITIES STATEMENT

We are a San Francisco Bay Area IT consulting firm. Our expertise expands both public and private sectors. With over 20 years of hands-on experience, we specialize in network design, infrastructure hosting, asset management, cyber security, and cloud phone services.

CORE COMPETENCIES

Network Design

- Architect zero-trust networks, optimize quality of service, SIEM & SOAR orchestration.

Infrastructure Hosting

- Leverage my extensive network for hosting email, VPS, colocation, IP, and transport services.
- Build scalable hybrid infrastructure on VMWare, Proxmox, OpenStack, AWS, GCP, or Azure.

Asset Management

- Endpoint lifecycle management from procurement to disposal.
- Benefit from remote monitoring, proactive maintenance, support, and optional parts replacement warranties.

Cyber Security

- Enhance your security posture with modern penetration testing, layered security measures, and defense-in-depth tactics.
- Utilize endpoint protection for mitigating zero-day threats and risk.

Cloud Phone Services

- Transition from traditional phone lines to crystal-clear cloud phone services compatible with Android and iPhone.

DIFFERENTIATORS

Our mission is to provide valuable IT operations that lower total cost of ownership and increase ROI. We pride ourselves on delivering simplified and organized IT operations.
